

# SUFFER THE CONSEQUENCES!

**By Messenger Elijah Muhammad**

**G**reat and powerful nations as America and Great Britain (England) cannot respect their inevitable doom -- not to think of the people that Great Britain (England) and America have crushed and brought into subjection to the will of Great Britain (England) and America.

THESE PEOPLE (the subjects, crushed people, and personal slaves) of England and America are too blind to see the inevitable doom of these two powers who have enslaved and robbed the Black people of the earth.

They carved up Africa like a checkerboard and enriched themselves with the resources of that Black continent up until this day.

Did England and America carve up Europe and rob the many, many empires that they set up in Europe under King "so and so" Emperor "so and so," and Queen "so and so?" Before their own crushing of Germany's might, Europe had many kingdoms (independent nations, as they call them). Why? Because all these are England's and America's brothers (white people). They looked out for the interest of their white brothers and wanted them to reign as kings and queens over their allotted territories.

But, the might of Germany and Russia became a factor that they had to respect and the overthrowing of the previous power of these little European kingdoms set up and backed by the big powers of England and America, with their long reach and effect over the the people of South America and Central American (Latin America as they are referred to), running from Mexico all the way down to Argentina (which is a white country like themselves).

All the inhabitants of the islands of the Pacific and Far East are weak and are powers crushed by England and America.

Today all of these darker people are demanding from these two great powers (Great Britain and America): "Justice or leave us to ourselves." There is no such thing as America and Great Britain being surprised at the call of justice coming from the mouths of their crushed Black people. They knew this was coming long before it took, place but they thought they were so powerful and so wise in deceiving and keeping deceived their subjects that they mocked such days and times that they are now faced with.

IT IS BETTER to give up that which does not belong to you than to fight and oppose the real owners of their own goods.

I warned in this very paper (MUHAMMAD SPEAKS): To let them (Black people) go or suffer the consequence.

Today the cry all over your slaves' and subjects' territories is for justice. "Let me go from you" is the cry.

Your answer is that which Pharaoh gave to Moses and his people. But, he too suffered the consequences. Long before Pharaoh ignored justice for his slaves, ancient Babylon under Nebuchadnezzar and Belshazzar suffered the like consequence.

The majority of our people at the present time do not want to go to their own. They do not want to be separated from the slavemaster, but hope that the slavemaster will consider them and do justice by them and they hope that they and the slavemaster still can live together. The only together that is mentioned in the prophecy where the slave and his master can be together is in a lake of fire mentioned in the Bible (Revelation 19:20). This is the only place that the Bible and Holy Qur-an teaches that the slave and his master can be together. But, this is not living together there. They will be put there alive but the fire certainly will not keep life in you.

The American-nursed slave, the Bible refers to as a home born slave. And also, Jesus makes a parable of such people's desire to live with the master for crumbs under the parable of Lazarus desiring to stay at the gate of the rich man's house, even though he gets nothing but crumbs.

This parable is fulfilled by the Black people in America, other than the Black people who are Muslims.

The civil rights groups (SCLC, SNCC, CORE and others) are all the same. The division comes about in their names.

As the world knows, each Black Man in America wants to be his own leader and will divide anything up into various divisions or groups for the sake of some fellow who wants to be a "head man" to whosoever will listen to him.

The Black Man in America today is in such a condition that no one can start him on a right way, lest he go off a wrong way just for the sake of leadership. But, I say, your straying from the right way which I am teaching you from Allah (God), Who Came in the Person of Master Fard Muhammad, to Whom praises are due forever and which is backed by Allah (God) will get you the consequences too.
