

## Notes From The Messenger's Table

*August 23, 1968*

Britain Honduras and Africa can't wait for Messenger's answers to their problems so they came here.

Apostle is overworked due to his poor laborers.

Messenger desires to give us what Allah has given him. Wants us to be like him.

IF we are going to use devils texts cut out story telling and put in an educational way. If you are going to use animals tell the student the nature of the animal. Don't put ugly pictures in your text. 1st give a knowledge of subject or animal then the nature of it.

A student that has come through the grade should be taught the knowledge of self.

### About the Devil

If by nature you were made in truth there would be no end to you. Because truth has no end.

You use our wisdom to make you the ruler and added falsehood. You have a bastard like language. Take an airplane for instance, Who made the plane. Where did you get the idea (from the bird) Who made the materials? Who made you?

You were made in gravity. We were made before there was gravity. then we ordered the gravity. Do you bring the water down or do we bring it down? Do you take the sun and purify the water before it comes back or do we? Then why don't you give credit to Allah? Show me something you have that you didn't get from us. Did not you find remnants of our civilizations buried in the sand?

God has taught me how to contend with the devil and I want to teach you.

### About Our Children

Children in school are wise and behave proudly. Acting strange and this is because it is prophesied and the best way to contend with it is to separate them from the good ones - and study the bad one and stop him by exposing him in the eyes of the others. "I want you to know that if you follow after this one I'm going to find a way to punish you and I warn all of

you if I catch one of you practicing this evil then I'm going to punish you and your parents are with me and I'm going to tell them what a nasty child you are and you are not fit for Islam nor Christianity. You only fit for hell fire. And if one of you see him wrong I'm going to punish you and tell your deeds in front of all of them and that will make them feel cheap. Keep them separate from lost founds because those will spoil our children.

Use same method for older children. See this girl over here. She wants her for her sweetheart. See this little boy over here. He wants him for his wife. See those boys over here they are not natural. They are savages. They want to be sweet hearts with each other. These are the type Allah wants to burn up.

Teach them all they can take in wisdom but never give them more than they can take.

Make them write perfect and figure perfect.

Get a penmanship teacher. Give them a few letters at a time and make them write perfect.

Teach the science of the letters in the upper class.

With the Math you can weigh the planets. Math language is the greatest (teaching) language you can get.

Take a fact, weigh through math. First know how to approach the problem and what to approach with.

Make Lost/Found sign agreement they will support physically and spiritually the child.

We should come to Chicago if letter will not suffice.

I want so bad to see you set up a curriculum.

No student used the text of the devil. Every minute of the 2 hours was learning.

Don't need more than 2 hours. 3 hours is too much for the type of learning that is going on. We may get back to 2 hours.

If they want the teacher to train them they must back them up.

He is no fake. When you see the plane, the bomb has already been dropped. Takes ten minutes to go into ground. Like a jack hammer. Plane is a reality. 20 years to build. 20 years. Not 120 years to build Noah's ark. What kind of food do brothers on Mother Ship). You will see minor prophets rising up called satellites older men or women -- They are witness bearers who work in conjunction with major prophets.

I'm telling you things today I knew for 37 years.

They will attack and kill our people but Holy war will set in before they kill 1000. The slave

is backed by God.

Holy Qur'an prophesy of Medinah's calamity. Allah banished or killed off the hypocrites. (1st banishment). Ring of fire around the Messenger. Affect your mind. Hypocrites never cross his path. Allah kills them or keeps them away from him.

Devil was so savage that Moses could not trust them - so he built a ring of fire around them. This is to tell you that His Messenger has a ring around him.

Baal riding the donkey 3 beating. 3 years in jail for mocking him. 90% of this is in the problem book. Study our lessons.

If you need wisdom ask for it. Today is the end of that 50,000 year history.

One angel is given the power to plague the people with the power of the sun. Holy Qur'an warns of a drought coming that will dry up the water.

Jude clouds without water -- They don't seem happy

General resurrection and punishment of disbelievers are taking place.

All 10 had lamps full of oil but half had oil when the bridegroom comes. Means half.

The physical illness of a person can cause mental illness also. Physical and mental illness are co-related. If you hit your finger it will cause physical pain and also mental pain because of the nervous system transmitting the signal to the brain which receives and diagnoses the message. Fatigue will cause illness. Problems and emotional strain will cause many kinds of sickness to appear in a person.

On Astrology -- It is not from the righteous. It is from this 6,000 year period of the devil. It is not a science it is guess work. The people who practice it are "robbers" and liars. "No I don't believe in Astrologists". Witchcraft is only for the ignorant person. The Astrologists operate on the mind if you believe in them and Astrology.

Astronomy is truth, but astrology doesn't give you that. You can't associate astrology and astronomy together. If you start studying it and you are not sincere you will become a victim of it". I researched Astrology in the Library of Congress and found it to be false. Not a true science at all."
